**Being told ‘you have cancer’ can affect so much more than your health – it can also affect your family, your job, even your ability to pay the bills. But you’re still you. We get that. And, after over 100 years of helping people through cancer, we get what’s most important: that you’re treated as a person, not just a patient.**

**It’s why we’ll take the time to understand you and all that matters to you, so we can help you get the support you need to take care of your health, protect your personal relationships and deal with money and work worries.**

**We’re here to help you find your best way through from the moment of diagnosis, so you’re able to live life as fully as you can. For information, support or just someone to talk to, call 0808 808 00 00 or visit [macmillan.org.uk](http://macmillan.org.uk)**
